

INSPIRING GLOBAL CHANGE SINCE 1222

SCHOOL OF PSYCHOLOGY

COGNITIVE NEUROSCIENCE AND CLINICAL NEUROPSYCHOLOGY

The Master's degree offers the latest developments in Cognitive Neuroscience and Clinical Neuropsychology research and applications. The programme encourages an active role for students and offers several hands-on trainings for learning TMS, tDCS, EEG, fNIRS, clinical testing and advanced imaging software. This allows students' theoretical learning to be complemented by state-of-the-art technical and practical skills.
