

INSPIRING GLOBAL CHANGE SINCE 1222

SCHOOL OF PSYCHOLOGY

TECHNIQUES AND METHODS IN PSYCHOLOGICAL SCIENCE

This online Bachelor's degree discloses the intriguing secrets of human mind and behaviour allowing a worldwide access to a top-notch learning experience. Basic concepts of the most important psychological domains will be provided. Topics include Clinical Psychology, Psychometrics, General and Biological aspects of psychology often emphasising social and intercultural perspectives. Specific activities will facilitate the interaction between the learners and the instructors/tutors. For all students, short, intensive in-person sessions will be planned every year.
