METHOD OF CALCULATION OF THE ANNUAL FLAT-RATE CONTRIBUTION

(Voluntary registration in the National Health Service for non-EU citizens)

A) To voluntarily register in the National Health System, an annual contribution must be paid calculated on the total income earned in the previous year (to be understood as a calendar year) in Italy or abroad.

This contribution is calculated by applying:

- the rate of 7.5% up to the share of income equal to € 20,658.28
- the rate of 4% on amounts exceeding € 20,658.28 and up to the limit of € 51,645.69.

In any case, the amount cannot be less than € 2000.00.

B) They can be written voluntarily - pursuant to art. 34 of the TU 286/98 - foreigners in possession of a residence permit valid even for less than 3 months only in the following cases:

- reasons for study
- people placed au pair.

In these two cases the contribution to be paid for voluntary registration is a flat rate as follows:

- study purposes, the flat-rate contribution of € 700,00 is provided only if the student has no income other than scholarships or economic subsidies provided by Italian public bodies
- people placed au pair the contribution is € 1.200,00.

The flat-rate contribution - for students and au pairs - is not valid if these subjects have dependent family members. In this case, the amount of the contribution must be calculated according to the methods referred to the point A).
