

INSPIRING GLOBAL CHANGE SINCE 1222

SCHOOL OF ECONOMICS AND POLITICAL SCIENCE

APPLIED ECONOMICS

This Master's degree provides students with a solid understanding of the fundamental tools of economic analysis that are employed by private companies, governments and non-profit organisations to thrive in the digital and green transition. Focusing on developing technical and analytical skills, the programme offers theoretical courses and applied research-oriented teaching to conduct a rigorous study in the most innovative fields of applied economics. The Master's degree is organised into three curricula: Digital Economics; Economic Data Analytics; Environmental Economics and Green Finance.
